

# Regen-Sediment®

## Lake and Pond Biological Support

**Establishes healthy microbiota + Breaks down organic matter + Enhances nutrient removal + Increases water quality and clarity**

Regen-Sediment is a next generation 'probiotic' tablet for restoration and maintenance of impaired water resources. They establish a healthy microbiota at the water-to-sediment interface that accelerates the digestion of organic matter. The tablets sink to the bottom and rapidly populate the aquatic environment in which they are applied.

| Surface Area           | Targeted Sediment Reduction | Sediment Maintenance & Prevention |
|------------------------|-----------------------------|-----------------------------------|
| 1,000 m <sup>2</sup>   | 3 - 6 kg                    | 1 - 3 kg                          |
| 2,000 m <sup>2</sup>   | 5 - 12 kg                   | 3 - 6 kg                          |
| 4,000 m <sup>2</sup>   | 10 - 23 kg                  | 5 - 12 kg                         |
| 20,000 m <sup>2</sup>  | 46 - 114 kg                 | 23 - 57 kg                        |
| 40,500 m <sup>2</sup>  | 91 - 227 kg                 | 46 - 114 kg                       |
| 405,000 m <sup>2</sup> | 907 - 2268 kg               | 454 - 1134 kg                     |

Item No. 080MB

### STORE IN A COOL, DARK PLACE.

Regen-Sediment works best when water temperature is 1°C to 54°C

- \* Do not mix directly with algaecides or herbicides.
- \* If used in conjunction with algaecide or herbicide, apply Select-Sediment after chemical treatments for best results.
